Naegleria infection is caused by a parasitic amoeba found in freshwater lakes, ponds, rivers and hot springs.

The FDA is mindful in a variety of contexts, such as tobacco, about the dangers of advertising to children, and yet it ignores all that wisdom with this decision.

Some forms respond to topical or systemic retinoids.

Strict exit requirements apply to children under 18 years of age who are travelling alone, with only one parent, or with anyone other than the parent(s) (see Entry and exit).

Counselor Regina Carpenter extended thanks to the Skaggs PTA for making all of the Red Ribbon Day buttons for students, teachers and staff and for the fantastic RRW items for each Skaggs student.
